## Professional Experience

---

### Software Developer Engineer (2+ years)

August 2023 – Present

Maveric Systems Limited

- Delivered secure, scalable web apps using **Angular**, **React**, and **DevOps** (CI/CD, Docker, Kubernetes), **improving uptime by 30%**, reducing deployment time and **boosting user engagement by 20%**.

### Security Consultant

Dec 2021 – Feb 2022

Secureise Cyber Security Training And Services Pvt.Ltd

Internship

- Performed vulnerability assessments on **10+ domains**, remediating **200+ issues** and deploying security measures that **blocked 500+** intrusion attempts annually.

## Skills

---

- Web Technologies:** Angular, React, HTML5, CSS 5.01, Tailwind CSS, JavaScript, TypeScript, Bootstrap
- Backend:** Node.js, Express.js
- Database:** MySQL, Firebase, MongoDB
- DevOps:** CI/CD Pipelines, Jenkins
- Tools:** Git, GitLab, Eclipse, Maven, VSCode, Debugging, BIRT, SonarQube, SonarLint, Checkmarx

## Projects

---

### SNAPI – Test Automation Tool (Maveric Systems Limited)

January 2024

- Developed and maintained the Angular-based frontend for SNAPI, implementing reusable UI components using **Angular 18**, **TypeScript**, **RxJS**, and **Angular Material**, improving modularity and reducing code duplication by 20%.
- Enhanced application performance by optimizing API integration with **Axios/HTTPClient**, reducing response time by **25%** and improving user experience.
- Conducted frontend security validations (XSS, CSRF, and input sanitization) to ensure secure user interactions and compliance with **OWASP guidelines**.
- Utilized **Git** and **GitHub** for version control, creating feature branches, raising pull requests, performing code reviews, and resolving merge conflicts efficiently.
- Leveraged **ESLint**, **Prettier**, and **SonarQube** for static code analysis and code quality checks, ensuring adherence to coding standards.
- Integrated **Jest** and **Jasmine** testing frameworks for unit testing UI components, increasing frontend test coverage and reducing production bugs.

## Achievements

---

- Hall of Fame:** 🏆 **Recognized by top brands (HackerRank, Dell, Mastercard, etc.)** for reporting 1000+ security issues; ranked among the top **800** security researchers worldwide.

## Education

---

### Bachelor of Engineering in IT

2020 – 2023

Savitribai Phule Pune University [ **GPA: 8.26** ]

- Relevant Coursework:** OOP, Databases, DSA, Operating Systems, Computer Networks, Cybersecurity

## Certificates

---

- Monitor and Log with Google Cloud Operations Suite Skill Badge** [🔗](#)
- Certified AppSec Practitioner (CAP)** [🔗](#)
